Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent # 3,582,100 to Allsop.

Allsop teaches an apparatus comprising an elongated rod (21) having varying cross-section in a longitudinal direction, an elongate sleeve (52) mounted on the elongated rod in a first position to facilitate insertion of a portion of the sleeve in a hole and the sleeve is capable of being axially translated along the elongated rod to a second position to facilitate a positive engagement of the portion of the sleeve within the hole. The apparatus includes at least one attachment element carried by the sleeve. The attachment element includes a ring (43) defining an opening larger than the sleeve and a plurality of spokes (54) extending inwardly from the ring to the sleeve.

Allowable Subject Matter

Claims 1 and 3-20 are allowed.
